DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - V. Claims 44, 45, 52, 58-60 and 73-75, drawn to if sender's address exists then accept email, classified in class 709, subclass 206.
 - VI. Claims 46, 53, 61, 62, 76 and 77, drawn to if host is in domain of sender address then accept email, classified in class 709, subclass 245.
 - VII. Claims 47, 54, 63, 64, 78 and 79, drawn to if host does not accept protocol transaction then accept email, classified in class 709, subclass 230.
 - VIII. Claims 48-51, 55-57, 65-72 and 80-85, drawn to classifying email addresses, classified in class 709, subclass 244.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions V, VI, VII and VIII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention V has separate utility such as filtering email based upon simple existence of the sender address. In the instant case, invention VI has separate utility such as email use within a corporation. In the instant case, invention VII has separate utility such as protocol verifying. In the instant case, invention VIII has separate utility such as building a table of known invalid email addresses. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group V is not required for Groups VI, VII and VIII, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group VI is not required for Groups V, VII and VIII, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group VII is not required for Groups V, VI and VIII, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group VIII is not required for Groups V, VI and VII, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
